OK.

With respect to indemnification, don't forget that in your meeting with Saint Gobain last month, you asked the company if they will indemnify the Village and Chris Gibson said no, Saint Gobain is not going to do that now. He didn't rule it for some point in the future. He mentioned that there are a number of insurance policies, including ones that the Village has had, and as a result, he doesn't think it would make sense for the company to indemnify the Village now.

Hi paul. Greetings from Costa Rica. This mornings news clips say that the village is close to reaching an agreement with Saint gob. I know we have heard this for months now but the new twist is that it will also cover the clean up and not only water supply. Please call tom ulacewucz snd find out what is going on. We don't want conflict with superfund cleanup requirements. I know superfund is not pre emptied by s village agreement but let's make sure this does not msjf our job harder. Also ask ulacewicz if he had gotten indemnification for the village. If he doesn't get it now he may never get it. Thanks
